Description

The Mikado dining table, designed by Alain van Havre, has been one of our most recognizable designs for years. For its round version, we kept the same eye-catching construction but aimed for a visually lighter design. In an exercise of balance and stability, the legs are thinner and more refined with round edges to fit the solid oak dining table's new shape.

Designer Alain Van Havre

For Alain van Havre, inspiration is everything. Deeply connected to his environment and passionate about natural materials, he has developed an exceptional expertise for woodworking. Over the years, he has created his own visual language centred around form, a translation best described in collections such as the Bok, Graphic, Pl, and Stairs. He believes that for someone to connect with a design, it is important to bring it closer to nature. Over the past 20 years Alain has played a pivotal role in influencing the Ethnicraft designs we know and love today.
