

Roller Max side table - oak - round - removable cover 40/40/42

50047

Description

Designed by Jacques Deneef, the Roller Max is a clever multifunctional item that combines a side table with storage. Encapsulated in its stacked wood-stick effect, the tabletop can be easily removed to hide the newspapers, toys, cushions and throws from daily life. The perfect solution for smaller living.

The tabletop can be removed to store objects inside the table.

Designer Jacques Deneef

Jacques Deneef is an Antwerp-based designer with a fascination for basic materials such as glass, wood, leather, paper and wax. After entering the world of art via his talents in oil and acrylic painting, he now focuses his time giving used objects new leases of life, alongside design development in sectors such as jewellery, lighting, textile, furniture and decoration. In offering objects a new existence, Jacques believes they are transformed into something new, they are made useful in some other way, ultimately resolving into their final destination: a work of art.
