# Parentesi

Designed by Achille Castiglioni and Pio Manzu, 1971

Halogen - 120W

Adjustable luminaire featuring a painted or nickel-plated shaped steel tube that slides vertically along a ceiling-to-floor cable kept in tension by a cast-iron counterweight. A fixture head made of black injection-moulded elastomer houses the switch. Allows the addition of a second light source.

Designed by Achille Castiglioni and Pio Manzù, Parentesi is a modern design classic and a celebration of collaboration. It is named after the parenthesis symbol in reference to the curved metal tube that holds the bulb. Achille Castiglioni developed the design from an original drawing by Pio Manzù, and Parentesi is attributed to both designers despite them never meeting and Manzù dying two years before the lamp came to be. Parentesi won the prestigious Compasso d'Oro ADI Award in 1979 and is part of the permanent collection at MoMA and other major design museums.

In our constantly evolving world and business, technical upgrades happen every day. This means all product specifications and data are subject to change without warning in order t improve reliability, function, performance or otherwise. We make every effort to ensure the accuracy of our product images, however due to different lighting and screens used for viewing, the colours may vary. Images are indicative of the quality and style of the product but may not represent the precise details of the product you receive. This is because we are constantly working to make improvements. For aesthetic reasons, cables and/or electrical elements are often not shown. Refer to technical data sheets for all technical data. Images and colours are not part of any contract or warranty in any way.
